Explanation UV Resistance Outdoor Use

Additional UV resistance testing is not required for cables or wires to be in accordance with the standard for outdoor installation and to be permitted for outdoor use.

UV resistance

Cables and wires that have been tested and certified for **UV resistance** in accordance with DIN EN ISO 4892-2 in an external test laboratory, in congruence with HELUKABEL specifications, are labelled with a “UV” symbol on their shop data sheets, see e.g. JZ-500-BLACK, JZ-600, HELUTHERM® 145 MULTI, and SOLARFLEX®-X H1Z2Z2-K.

Outdoor use

Cables and wires that are approved for **outdoor use** in accordance with the basic manufacturing standard contain the information "outdoor installation" in their respective application texts, see e.g. NYY, NYCY, NAYY, NYCWY, N2XSY, and NA2XSY.

Sincerely,

HELU KABEL GmbH
